

Founded in 1952, The Lundquist Institute for Biomedical Innovation at Harbor-UCLA Medical Center (TLI) is a leading nonprofit research organization dedicated to pioneering medical advancements and improving patient care.

The Lundquist Institute has been a cornerstone of Los Angeles County's life sciences ecosystem, driving groundbreaking discoveries that save lives. With a strong focus on cutting-edge translational research, TLI is committed to community engagement and achieving global impact, while also fostering the next generation of scientific leaders through robust education and training programs.

The Lundquist Institute also plays a key role in promoting technology transfer and commercialization, accelerating the transition from laboratory breakthroughs to real-world solutions.

Leadership

Joe W. Ramos, PhD

President and CEO

Mitch Sayare, PhD

Chair, Board of Directors

Research Areas

- Cancer Biology and Immunotherapeutics
- Health Services and Outcomes Research
- Infection and Immunity
- Metabolic Diseases and Endocrinology
- Neurotherapeutics
- Respiratory Medicine and Exercise Physiology
- Translational Genomics
- Women's and Children's Health

Research Advancements

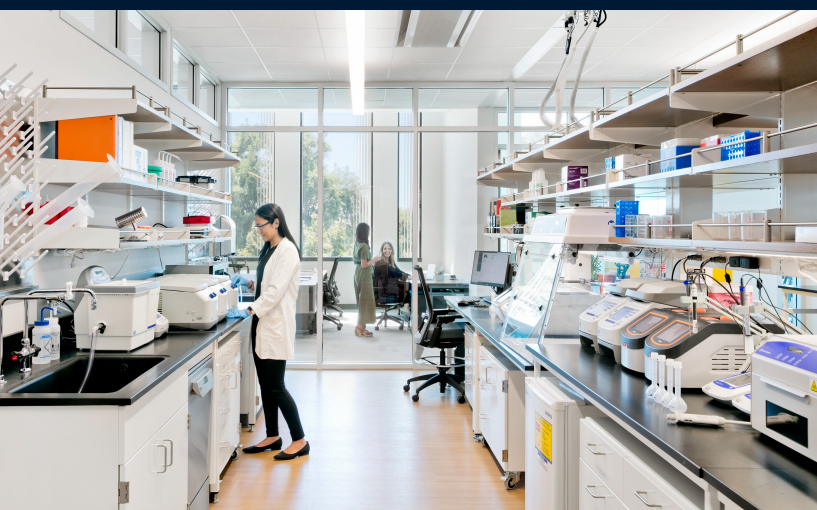

- 270+ patents issued
- 840+ patent applications
- Over 500 peer-reviewed publications annually

Healthcare Innovations

- Endari® for sickle cell disease
- Aldurazyme® enzyme therapy for MPS 1
- Tepezza® for thyroid eye disease
- QT Medical PCA 500™
- Male contraceptive gel
- Modern cholesterol test
- First U.S. nurse practitioner program for women's health
- Low-cost eye drops saving 500,000+ children's vision

Our Partners

- Harbor-UCLA Medical Center
- David Geffen School of Medicine at UCLA
- BioLabs at The Lundquist Institute

By The Numbers

- 132 Investigators (MDs, PhDs, MD/PhDs)
- 342 Research Staff
- 155 Community Services Support Staff

Education Programs

- High School Summer Fellows Program
- PhD Program in Translational Research
- Research Internships

Community Impact

The Lundquist Institute operates the South Los Angeles Health Projects (SLAHP), which delivers our Women, Infants, and Children (WIC) program, serving over 60,000 participants each month across 11 locations in South Los Angeles. The program provides resources and support to improve maternal and child health, focusing on nutrition, preventive care, and health equity.
